

choice sun and shade®

professional landscape mix

AVAILABLE IN 5, 20 & 50#

Ideal for establishing premium lawns or upgrading existing turf

- Fast establishment & strong winter survival
- Excellent for new lawns or upgrading existing turf
- Improved varieties for better color, shade tolerance & disease resistance

Choice Sun & Shade turf mix is designed to perform in all locations from full sun to partial shade. Perfect for landscaping demands by using improved varieties which are more heat and drought tolerant. Its versatility has made it our most popular mixture.

STRESS TOLERANCE (1=WORST, 5 = BEST)

HEAT	4	WEAR	4
DROUGHT	3	TRAFFIC	4

ELITE VARIETIES - Many of our mixes feature elite turf varieties. An “elite” variety is an improved variety holding the most distinguished characteristics of that species.

Spreading Technology - Many perennial ryegrass products in our portfolio benefit from spreading technology, featuring early development of aggressively spreading rhizomes and rapid tillering. These spreading traits boast improved wear tolerance and recovery plus excellent density and persistence.
