

# green resistor®

tall fescue blend

AVAILABLE IN 5, 20 & 50#

### Ideal for home lawns, athletic fields & golf course roughs

- Tolerates heat & drought stress
- Excellent disease resistance – especially brown patch
- Can stay green where rainfall or irrigation is limited
- Low maintenance, high quality turf

This blend of excellent turf-type tall fescue varieties allows the turf to stay green during periods of heat, drought and disease stress, especially during brown patch season.

DROUGHT **5** TRAFFIC **5**

**ELITE VARIETIES** - Many of our mixes feature elite turf varieties. An “elite” variety is an improved variety holding the most distinguished characteristics of that species.

The “**XRE +**” icon designates products with tall fescue varieties featuring even earlier, more aggressive and rapid tillering traits and rhizome expression. These products exhibit superior density, excellent wear tolerance and rapid recovery.

Shade Tolerant
