ESTABLISHMENT (DAYS)	10 - 21

STRESS TOLERANCE (1=WORST, 5 = BEST)

HEAT	4	WEAR	4
DROUGHT	3	TRAFFIC	4

ELITE VARIETIES - Many of our mixes feature elite turf varieties. An “elite” variety is an improved variety holding the most distinguished characteristics of that species.

Spreading Technology - Many perennial ryegrass products in our portfolio benefit from spreading technology, featuring early development of aggressively spreading stolons both above and below ground. These spreading traits boast improved wear tolerance and recovery plus excellent density and persistence.
