

care free

shade & slope mix

AVAILABLE IN 5, 20 & 50#

Ideal for hillsides, deep roughs, RV parks & cabin sites

- Perfect for difficult to manage sites
- Thrives in infertile, dry, neglected soil or deep shade
- Prefers little to no maintenance & mowing

This special blend was created specifically for those areas where low maintenance is a must such as steep hillsides, deep roughs on golf courses, RV parks, cabins, or planting with wildflowers.

STRESS TOLERANCE (1=WORST, 5 = BEST)

HEAT	3	WEAR	2
DROUGHT	4	TRAFFIC	3

ELITE VARIETIES - Many of our mixes feature elite turf varieties. An “elite” variety is an improved variety holding the most distinguished characteristics of that species.

The **A**lliance for **L**ow **I**ntput **S**ustainable **T**urf is a non-profit, university and industry, cooperative that serves to test, identify and promote varieties to consumers that maintain acceptable turf quality while requiring reduced water, chemical and fertility inputs. To become an “A-LIST Approved Variety”, a variety must have demonstrated superior performance in A-LIST trials.

Shade Tolerant

Our seed coating and treatments enhance germination, establishment and survival of the blends and mixes offered within the Earth Carpet® portfolio.

- Greater water holding capacity so better germination in drought conditions
- Micronutrients help seedling establish stronger and more vigorously
- Improved turf quality beyond establishment
- Improved establishment
- Uniform seeding
